LG Electronics India Limited announces its Q2FY26 results

Ahmedabad, LG Electronics India Limited (LGEIL), number one player in major home appliances and consumer electronics, today announced the results for the second quarter of FY26. The company delivered revenue from operations of ?61.74 billion in Q2FY26 as compared to ?61.14 billion in Q2FY25 with an EBITDA margin of 8.9% in Q2FY26. Despite a challenging demand environment, LGEIL recorded resilient topline growth. This performance reflects the company's underlying strength and consumer confidence in brand. The EBITDA margin drop was a result of the combined impact of rising commodity prices and incremental investments in festive go-to-market initiatives, to support the company's distributors during tough market conditions.

LGEIL has two business segments - the Home Appliance & Air Solutions (H&A) segment and the Home Entertainment (HE) segment. H&A includes air conditioners, refrigerators, microwave ovens, washing machines, dishwashers, compressors, HVAC, water purifiers and air purifiers. HE segment includes televisions (Flat panel, signage, projectors, monitor TV), audio visual, monitors and personal computers. The H&A segment maintained its market leadership in Q2FY26, recording growth across key categories. While the GST revised rate announcement temporarily deferred consumer purchase, LGEIL's strong brand equity and resilient distribution network helped strengthen its premium market share. (20-4)

How the WHO's Tobacco Treaty Went off Course

Ahmedabad, As governments prepare for COP11 to the WHO FCTC, a recent webinar hosted by the Taxpayers Protection Alliance (TPA) under its Good COP 2.0 initiative reignited debate on the treaty's direction. With growing discussions in India and globally around tobacco harm reduction, Dr. Derek Yach-one of the original architects of the FCTC and Martin Cullip, TPA's International Fellow and harm reduction advocate, called for urgent reform of the FCTC to reflect the realities of modern science and innovation.

The event explored the treaty's 20-year history and current direction, with both speakers expressing concern that the FCTC - once a groundbreaking framework for reducing global smoking rates, has failed to adapt to scientific and technological advances that could save millions of lives. Dr. Derek Yach, reflected on how global health innovation has evolved since the treaty's creation, "The FCTC was developed at the time of the WTO Doha Round that gave highest priority to innovations that led to HIV/AIDS drugs. They have saved millions of lives since. By contrast, the FCTC failed to anticipate that innovation and science would transform our ability to end smoking. The text is frozen in time and Member States struggle to appreciate that industry innovations are delivering products that are ending smoking and saving millions of lives." (19-10)
